

Next Ledge patent pending

The second-generation removable upper ledgeboards for your existing Barkow rack. The "Next Ledge" is designed to transport additional glass where YOU want it, effectively doubling the capacity of your Barkow rack. It is made of high-grade, durable stainless steel and can safely carry 400 lbs. when using the required two ledges. The "Next Ledge" hooks directly onto the Barkow high-tensile steel, aluminum or stainless-steel loadholding slats offering customers easy installation and removal. Each 4-inch useable ledge is equipped with a neoprene pad to protect glass and Velcro fastening for added safety while transporting glass.

Introductory Price: \$129.00 pair
